We have been harvesting medicinal wild plants, seaweeds and fungi for 30 years. We understand and care about the plants we work with. Each species is harvested at its prime stage of development, in a way that causes minimal impact on future plant populations. Our harvest area is the Klamath-Siskiyou bioregion of southwestern Oregon and northwestern California.

Wildcrafted herbs are harvested to order, and are only available in season. Please order before the season starts. We do not usually keep herbs in stock; we go out and harvest them for people that order them. This means that you always get freshly harvested herbs. Commercially available herbs are often several years old.

We ship by USPS, UPS or FedEx. You pay actual shipping cost, with a \$10 minimum. We accept payment by credit card, PayPal, check, money order or bank wire. All orders must be prepaid unless other arrangements have been made. There is a 2% monthly late charge on overdue accounts and a \$25 fee for bounced checks. Prices and availability are subject to change without notice. We do not accept returns of wildcrafted herbs unless we have made a mistake.

We also sell herbs in smaller quantities on our Etsy store.
