We have been harvesting medicinal wild plants, seaweeds and fungi for 30+ years. We understand the plants we work with. Each species is harvested at its prime stage of development, in a way that causes minimal impact on future plant populations. We harvest almost everything within 100 miles of our home in southwestern Oregon.

The harvest season for each herb is listed below. Please order before the harvest season starts. We will harvest and ship your herbs when they are ready. We sometimes have a few dried herbs in stock; a list of these is available at the Wildcrafted Herbs page on our website. We also sell herbs in smaller quantities at our Etsy store.

We usually ship fresh herbs by UPS and dried herbs by USPS. Shipping costs are paid by the customer. We are not responsible for packages that have been damaged, delayed or lost by the shipper. If your product arrives damaged or delayed, please notify us immediately so we can file a claim.

We do not accept returns of wildcrafted herbs unless we have made a mistake.
