We have been harvesting medicinal wild plants, fungi and seaweeds for 35+ years. We understand the plants we work with. Each species is harvested at its prime stage of development, in a way that causes minimal impact on future plant populations. We harvest almost everything within 100 miles of our home in southwestern Oregon.

The harvest season for each herb is listed below. Please order before the harvest season starts. We will harvest and ship your herbs when they are ready. Customers agree to purchase up to 10% more than the amount ordered. We do not accept returns of wildcrafted herbs unless we have made a mistake.

We usually ship fresh herbs by UPS and dried herbs by USPS. Shipping costs are paid by the customer. We are not responsible for packages that have been damaged, delayed or lost by the shipper. If your product arrives damaged or delayed (or does not arrive at all) please notify us immediately so we can file a claim.

We often have some dried herbs and fungi in stock. A list of these is available at the Wildcrafted Herbs page on our website. We also sell herbs and fungi in smaller quantities at our Etsy store.

Our Seaweed Products, Herbal Extracts, and Medicinal Mushroom Tea Mix are available at our website.
